

PERSONALIZED GIFT TAGS

Top 10 Dos and Don'ts

1. Please DO be aware that the tags only come in the shapes shown in the Personalized Gift Tag catalog. If your customer is interested in another shape, give us a call! We can probably print and die cut it for you, but there will be additional costs.
2. Please DO feel free to order a design with a bleed. We print first and die cut second, so bleeds *are* possible in this collection.
3. Please DO order tags with foil stamping on colored paper. Letterpress is only available on white or ivory paper, but we can foil stamp on any of the paper colors shown in your catalog and on your sample ring.
4. Please DO be aware that the tags are not sold with ribbon. We tend to photograph them that way, but don't stock ribbon for resale. If you're looking for ribbon to sell with these, we'd recommend Paper Mart – they have a lot of size and color options.
5. Please DO send custom artwork if you'd like! We ask that everything be print-ready, ideally in vector format. Not sure if the artwork you have is usable? We're always happy to take a look! Just email it over to proofs@hautepapier.com and we'll get right back to you.
6. Please DO be aware that the tags will arrive with the holes in them. They're very easy to punch out as they're already die cut.
7. Please DO order these for wine tags, wedding favor tags, hostess gifts, or 'from the kitchen' of tags. We also love them as a quick and easy topper for all the birthday gifts your kids give all year long or as 'from Santa' tags that hide a parent's handwriting!
8. Please DO feel free to order the tags on double thick (220#) paper! This ultra-luxe option adds \$1.50/piece retail to the price.
9. Please DON'T order the tags to be printed double sided. We just can't print them that way – sorry!
10. Please DON'T ever hesitate to call us with questions. It's what we're here for! Our phone number is 866.740.4222.
